Letter of Appreciation

I take great pleasure in congratulating the Islamic Networks Group on reaching their 19th year of service to the Muslims at large in the US.

ING has been involved in educating the Private and Public sector groups about Islam and Muslims, and in helping remove the stereotyping of Muslims. They have conducted sessions in Public Schools, Universities, Police Departments, and Other Groups across the US to bring about harmony amongst the various cultures in Islam and the US. With the help of Islamic scholars, they have developed FAQ's about Islam. They have done collaborative programs with the South Bay Islamic Association for an understanding between the Faiths.

I see ING's role as a communicator between Faiths, and in bringing harmony between the cultures they represent. They are bridging the gap between the Muslim cultures and the cultures of other Faiths.

I thank you for giving me and SBIA, the opportunity to be a part of ING's 19th Commemoration.

Faithfully,

Shahnawaz Saigal

President

for South Bay Islamic Association of San Jose, California.
